OUR VISION

CRYPTO FOR NATURE

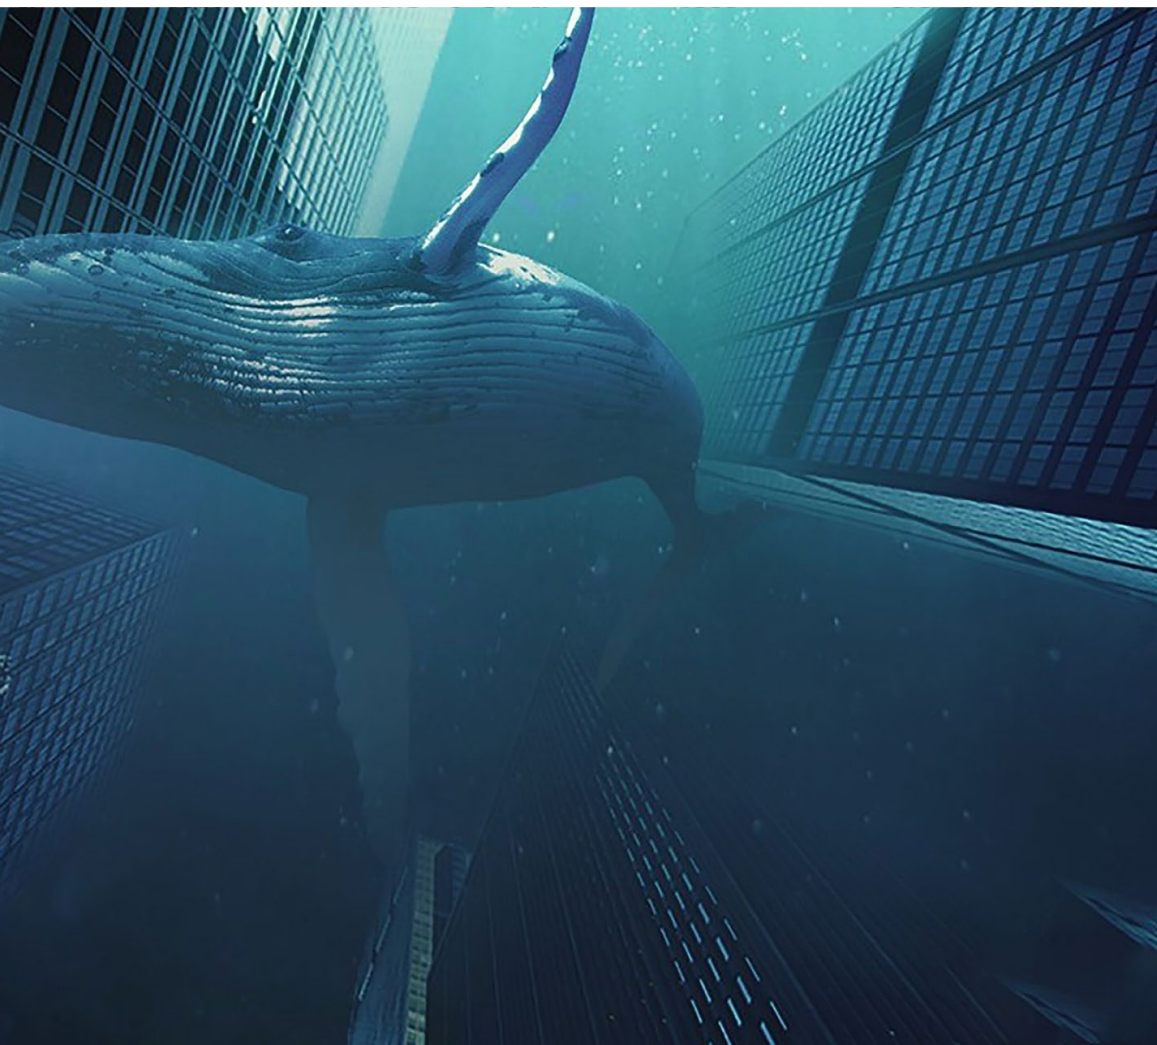

In the crypto ecosystem, when you hear the term whale, you immediately think about someone who holds a high amount of tokens of any kind. With this in mind, we decided to create a token, not only for those related to the crypto world but also, to create a movement to preserve and protect the ocean and its inhabitants.

Whales and other marine mammals are facing some serious plights in today's world. Our goal is to donate to those organizations that are actively fighting for them.

With your participation, we can achieve this.

TOKEN

Whale (WHALE) is a deflationary reward token, rewarding holders in a stable coin pegged to the Binance Smart Chain (BSC).

This allows all holders to enjoy their rewards without having a negative impact on our own chart.
