The manner of distributing this document may be restricted by law or regulation in certain countries. Persons into whose possession this document may come are required to inform themselves about, and to observe such restrictions. By accessing this document, a recipient hereof agrees to be bound by the foregoing limitations.
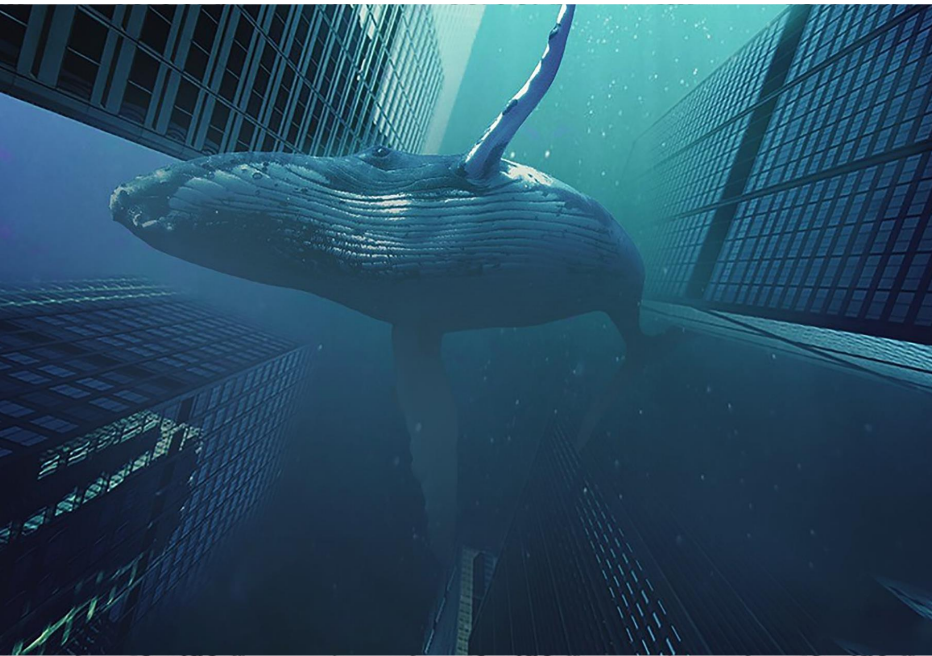

OUR VISION

In crypto, when you hear the term whale you immediately think about someone who holds a large number of tokens. In the ocean, whales are part of a vibrant and beautiful ecosystem, but due to pollution, greed, and ignorance these beautiful creatures are at risk.

That's why we decided to form the Whale Team and create a token to help preserve and protect the ocean and its inhabitants.

Whales and other marine life are facing a serious situation in today's world. Our mission is to donate to organizations all around the world that are actively fighting for them. With your help and investment, we can achieve this.

With your participation, we can achieve this.

WHALE TOKEN - $WHALE

WHALE ($WHALE) is a deflationary rewards token that rewards holders automatically in WBNB on the Binance Smart Chain (BSC).

The benefit of direct rewards payouts is it eliminates the need to sell in order to gain real world value.

There is also a Buy Back and Burn function that will take tokens out of circulation and increase holder value and confidence.

TECHNICAL INFORMATION

| TOKEN NAME	SYMBOL	INFRASTRUCTURE	DECIMAL
WHALE	WHALE	BEP20	12

TOTAL SUPPLY
100,000,000,000,000 (1Q)
